

INTERNSHIP OPPORTUNITY

The Face Analysis is Looking for an AI Developer Intern!

Work on facial geometry, MediaPipe, and AI image-editing systems.

What the intern will do

- Build facial-geometry calculations in TypeScript
- Improve WASM / MediaPipe integration and performance
- Contribute to prompt engineering for AI simulations
- Help with automated verification scripts

Who they are looking for

- Current student in Computer Science or a related field
- Strong TypeScript / JavaScript fundamentals
- Comfortable with geometry and math-heavy code
- Familiar with Git / GitHub workflows

What they offer

- Paid, remote, part-time
- Real production experience
- Direct mentorship from the founding engineering team
- Potential for an extended role after the internship
